

# SMART TASK MANAGER

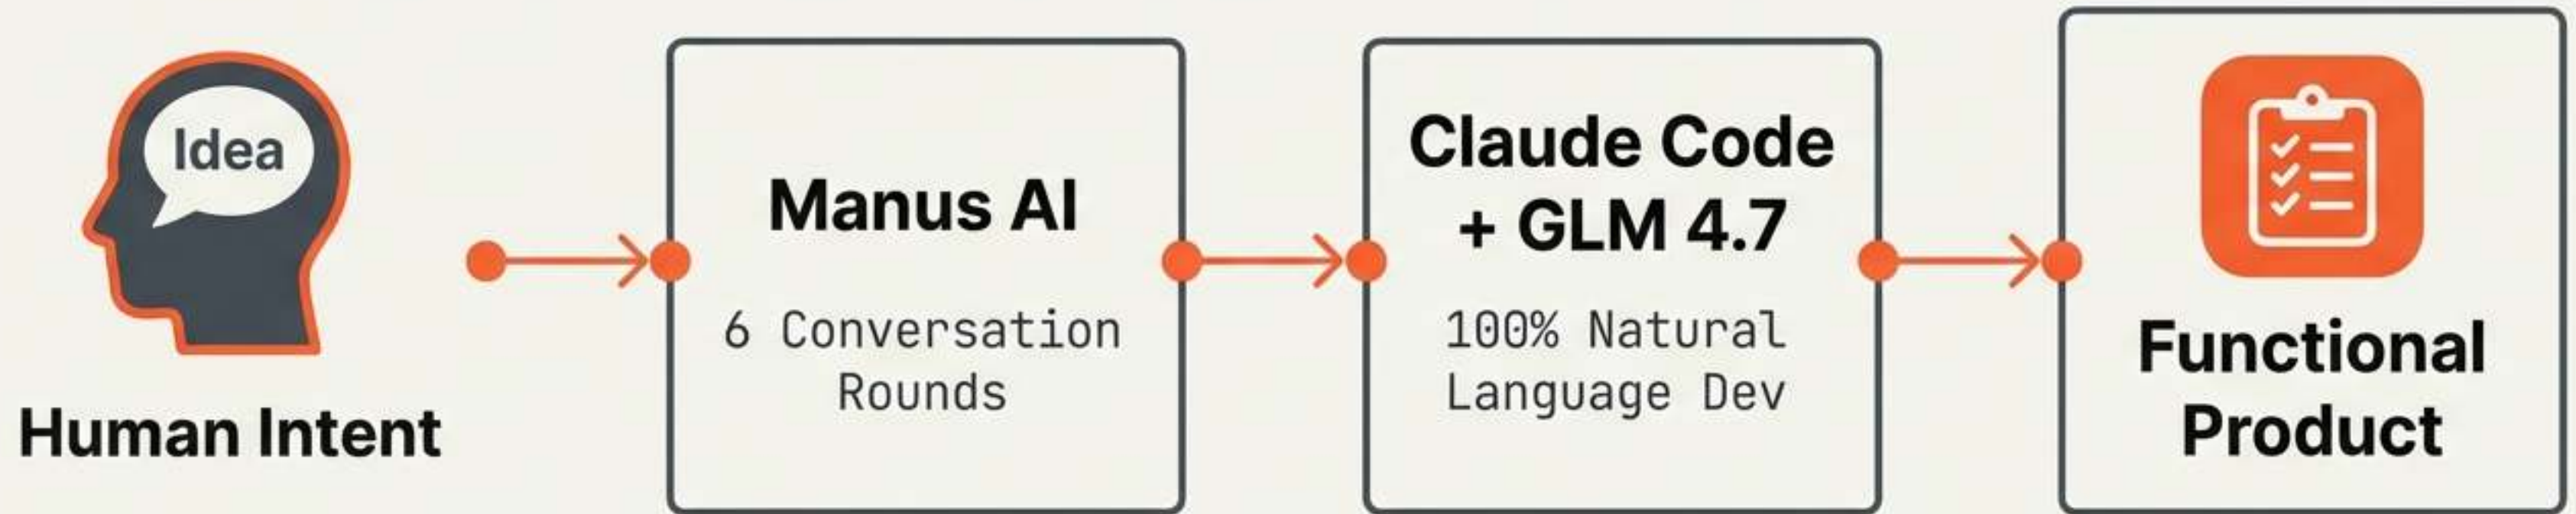

The AI-Powered  
Productivity Revolution.

Speak Human, Not Forms.  
Reclaim 20+ Hours Per Month.

# Built by AI, For the AI Era

“A tool born from extreme efficiency, designed to create extreme efficiency.”

**0 Coding Knowledge**

Developer does not know JavaScript.

**6 Rounds**

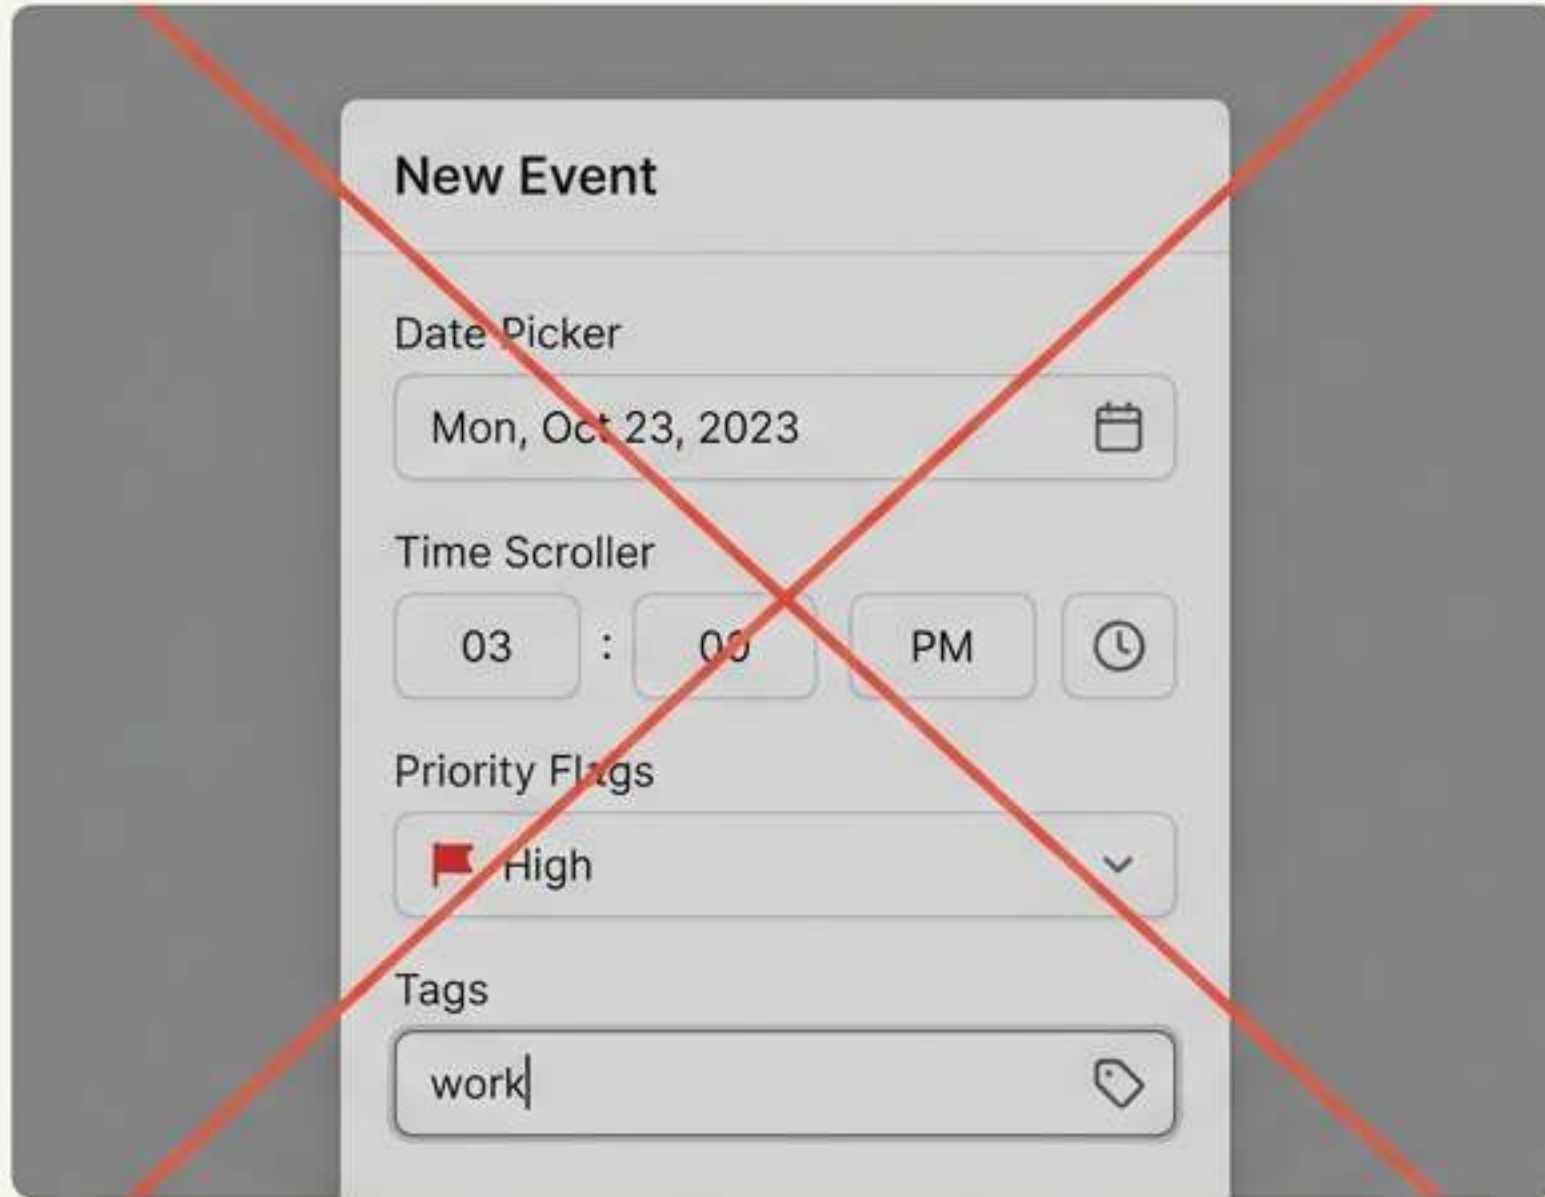

Prototype generated via dialogue.

**100% NL**

Built entirely through prompts.

# Stop Filling Out Forms

The image shows a 'New Event' form with the following fields:

- Date Picker:** A text field showing 'Mon, Oct 23, 2023' with a calendar icon on the right.
- Time Scroller:** A time selection interface with buttons for '03', ':', '00', 'PM', and a clock icon.
- Priority Flags:** A dropdown menu showing a red flag icon and the word 'High'.
- Tags:** A text field containing the word 'work' with a tag icon on the right.

The entire form is crossed out with a large red 'X'.

**Friction:** Select Date → Scroll Time → Click Priority → Type Tags.

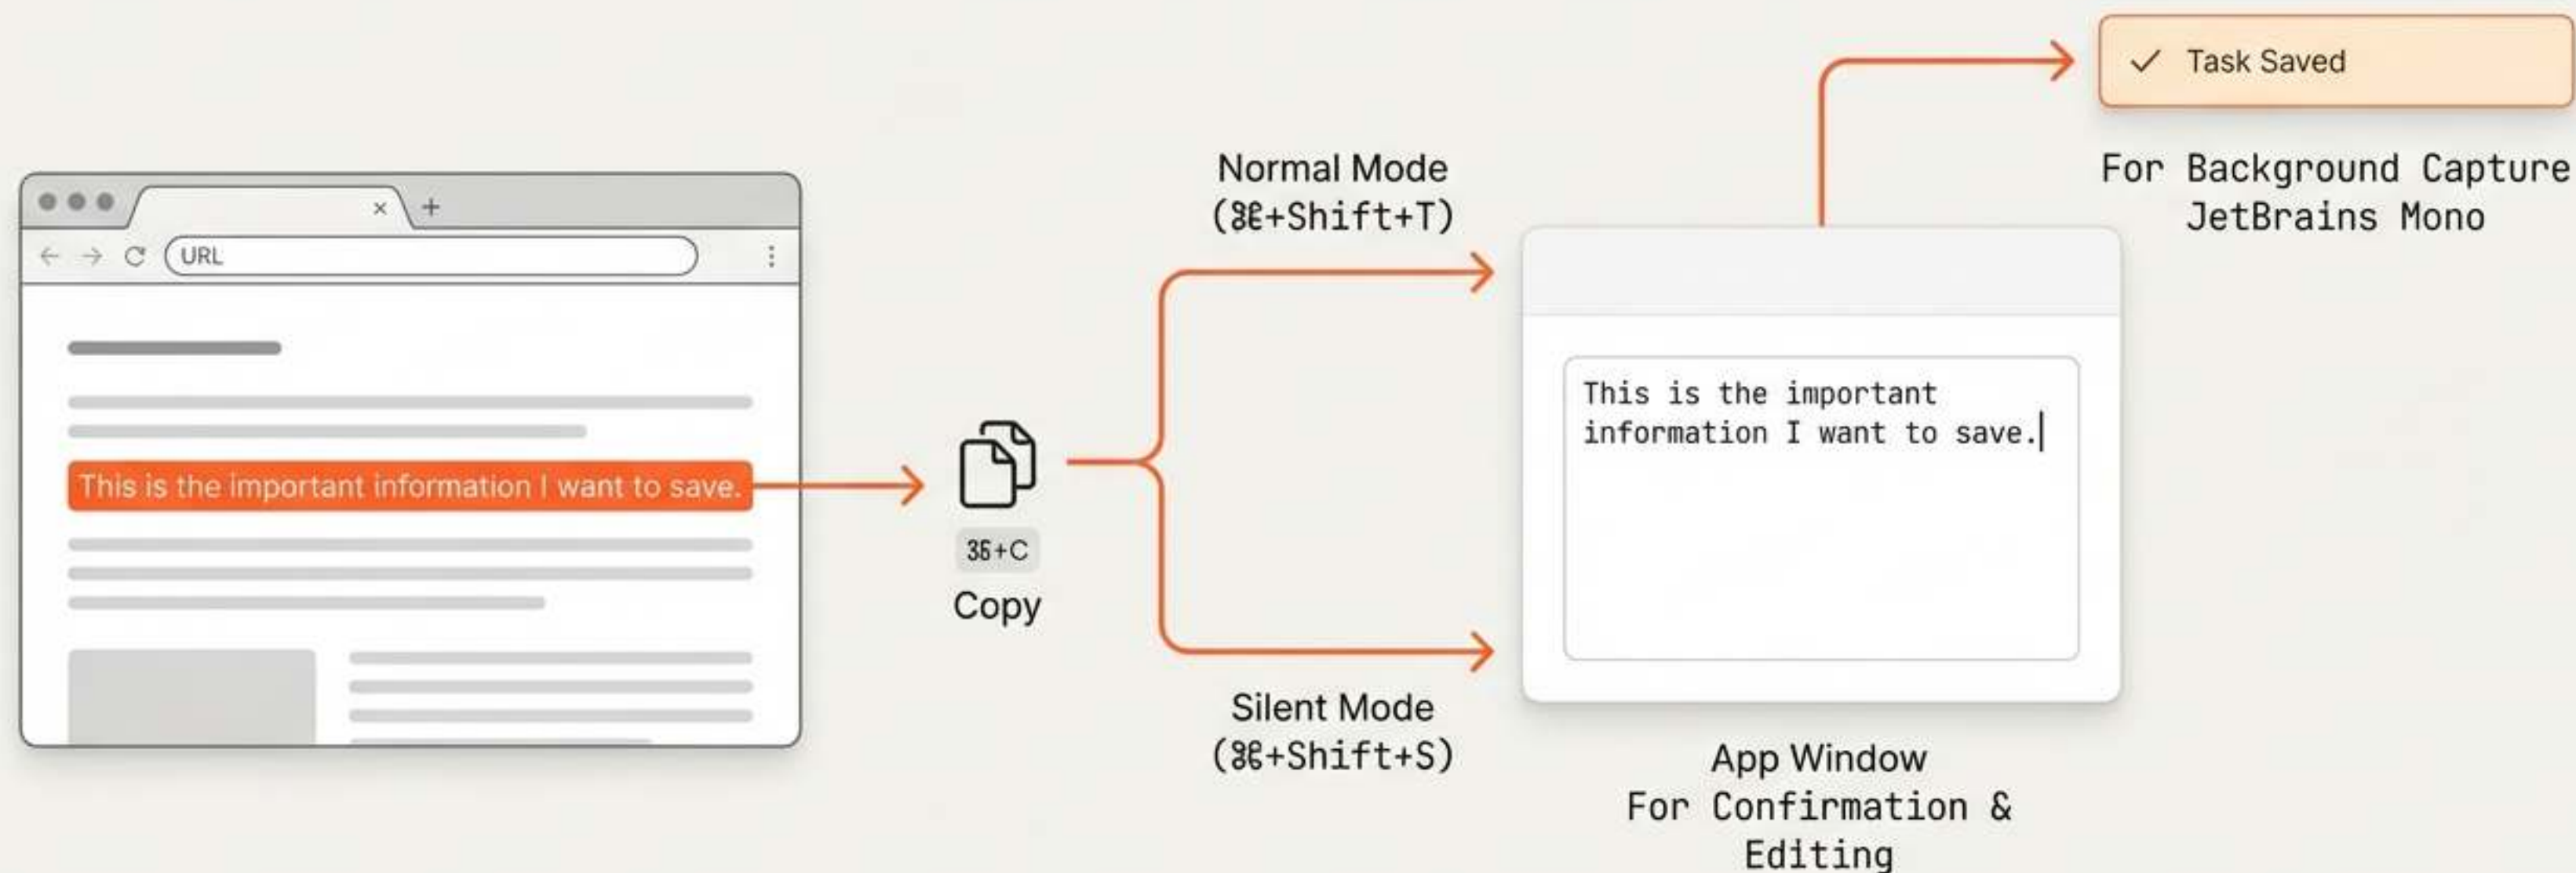

The image shows a text input field with the text 'Meeting at 3 PM tomorrow #work' and a green checkmark icon on the right.

**Flow:** Just say it. NLP understands intent instantly.

# Capture at the Speed of Thought

Two modes to ensure you never leave your context.

# An Executive Assistant with 20 Years of Experience

The AI is proficient in GTD methodology and parses rich natural language instantly.

Input

Output

Submit report at 9 AM next Monday, urgent →

Date: Next Mon | Time: 09:00 | **Priority: High**

Gym every Friday afternoon →

Recurrence: Weekly (Fri) | Time: 15:00 | Tag: #personal

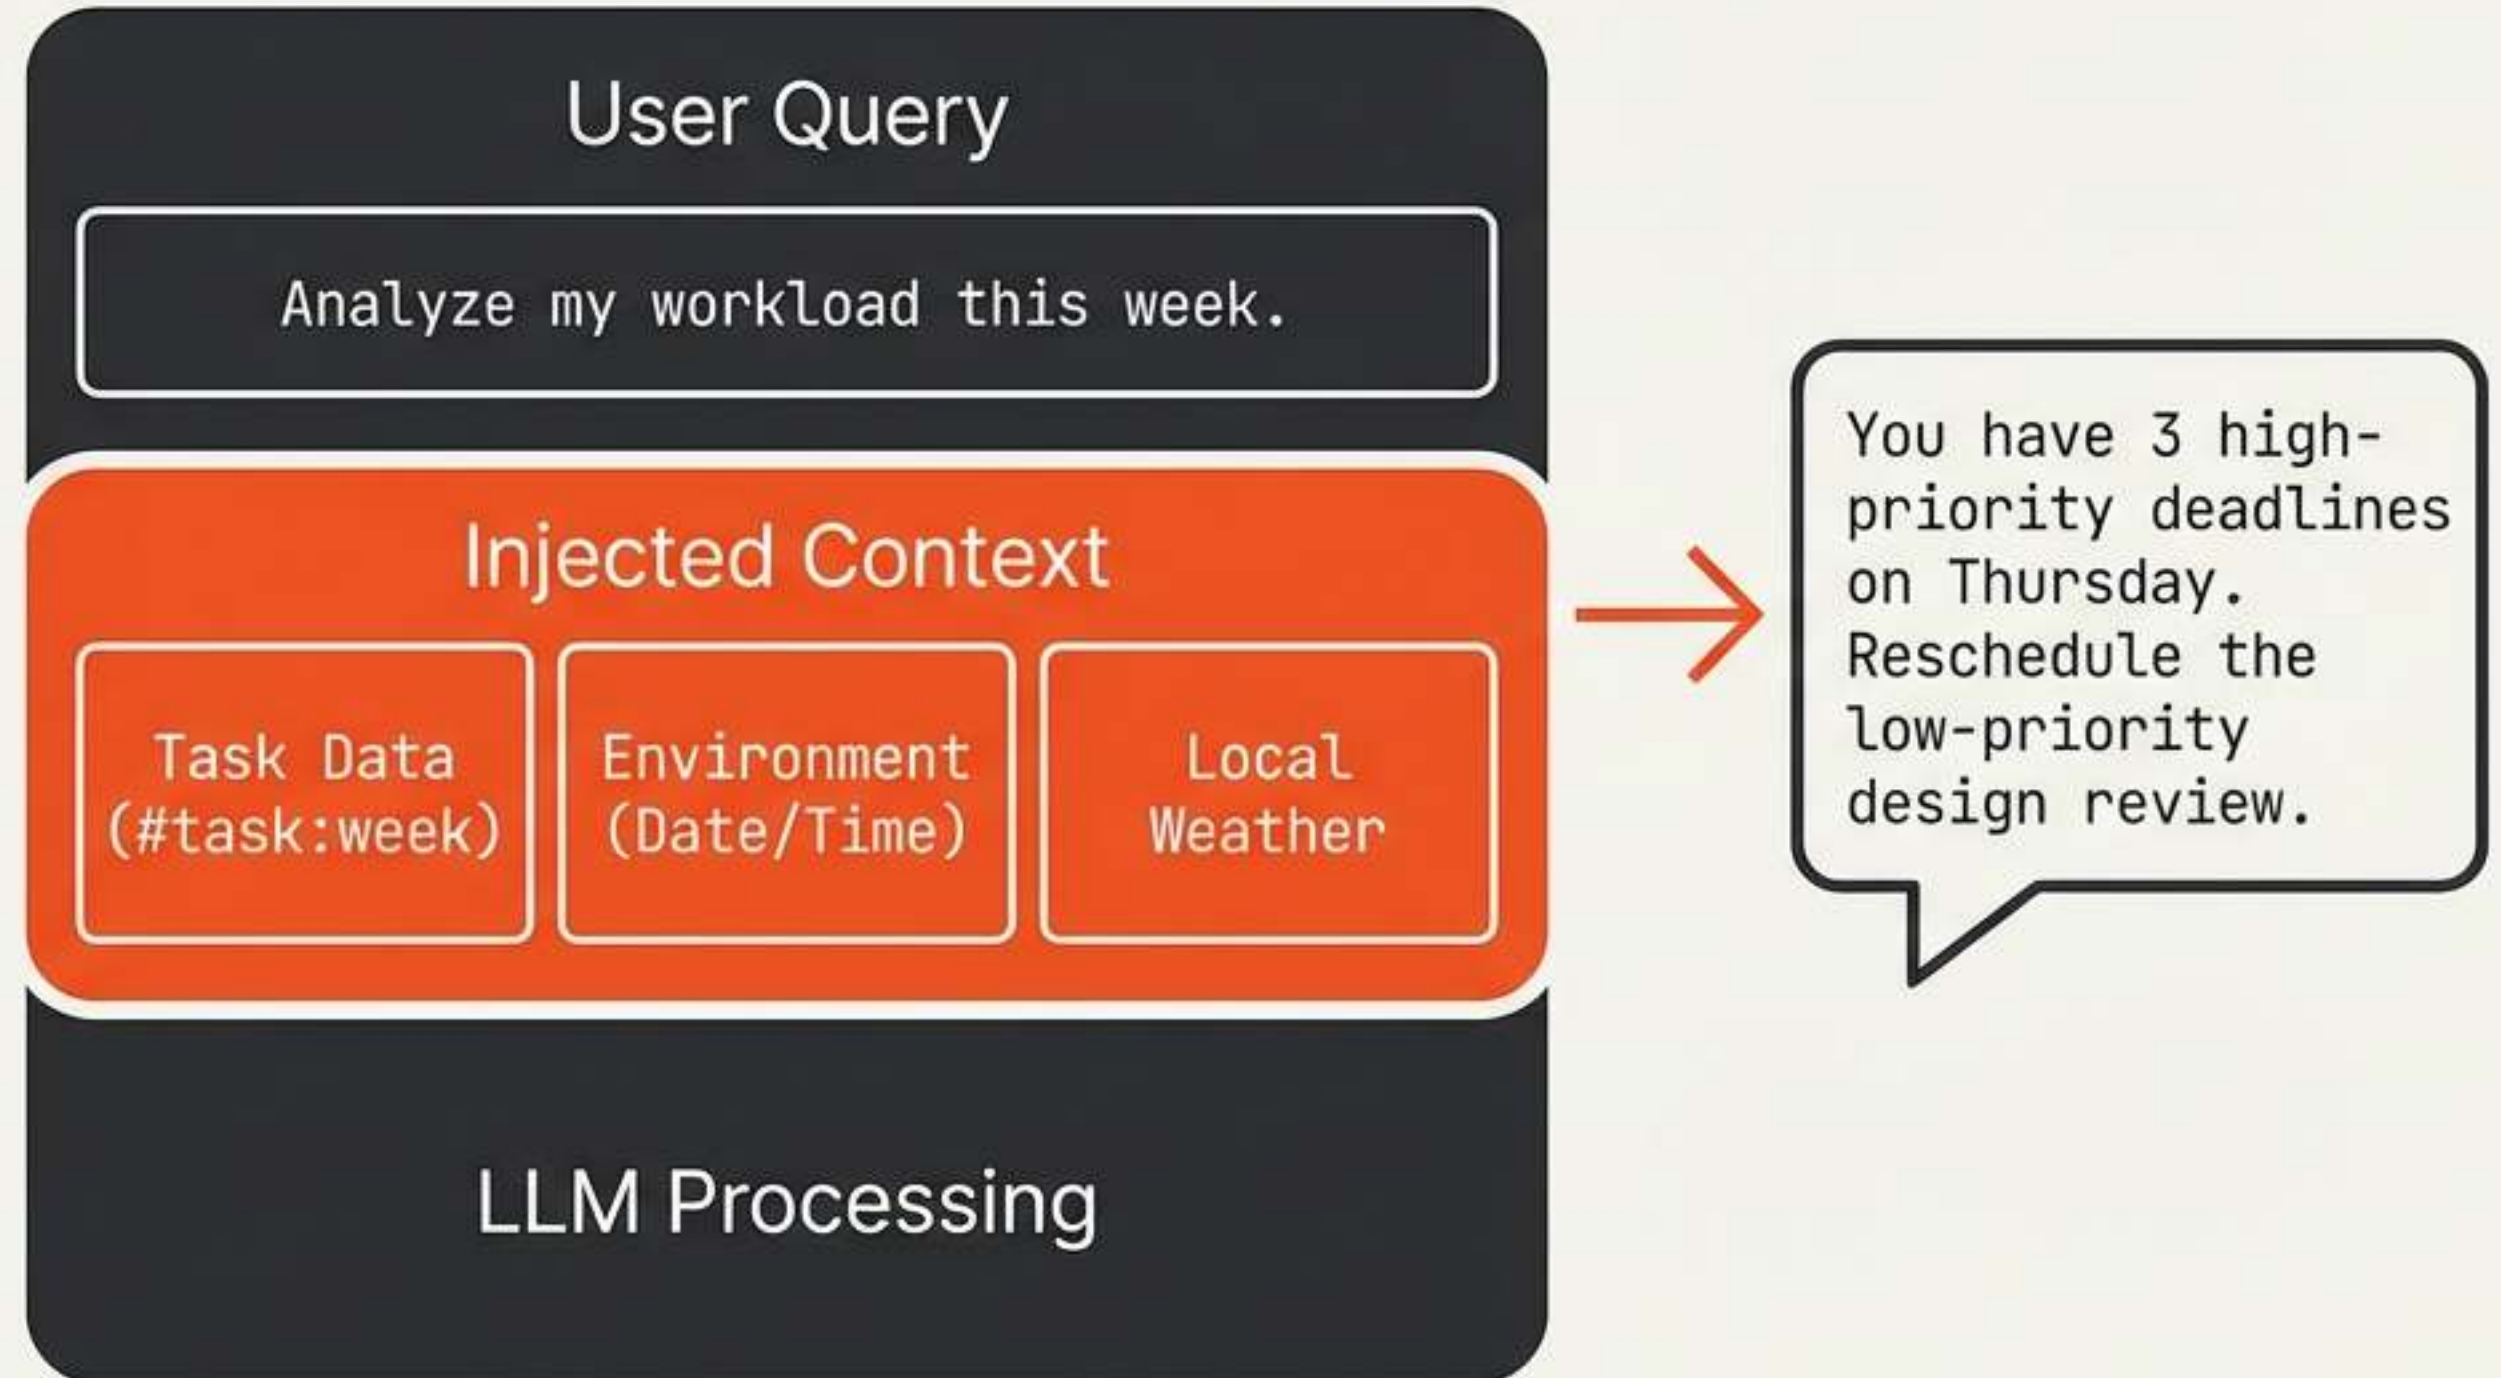

Pick up mom at airport in 3 days →

Date: [Current Date + 3] | Location: Airport

Processing time: < 2 seconds.

# Context Injection: AI That Knows Your Reality

Standard AI prompts are blank slates. Smart Task Manager injects reality before the model even thinks.

# Zero-Operation Capture

The Multimodal Screen Monitor.

- Screenshots Chat Apps & Emails
- OCR + AI Identification
- Pending Queue for Human Approval

# Automate Your Performance Review

## Weekly Report

### # Weekly Summary

#### ## Completion Stats

Completed: 14 [████████████████████] (88%)  
Pending: 2 [██] (12%)

#### ## Domain Analysis

40% Coding [████] [Coding]  
20% Meetings [██] [Meetings]  
40% Design [████] [Design]

#### ## Key Insights

- High productivity in morning sessions.
- Design review caused delays on Thursday.

- One-Click Generation
- Daily / Weekly / Monthly Scopes
- Actionable Recommendations

# Optimized for Flow: A Daily Workflow

# Designed for the Modern Workflow

## The Knowledge Worker (40%)

Needs deep focus. Captures admin tasks without breaking concentration.

## The Freelancer (30%)

Tracks time for billing. Impresses clients with automated project reports.

## The Student (20%)

Balances exams & life. Natural language logs assignment due dates instantly.
